# Development of Business Apps on Force.com Platform

Sneak Peak

15/02/2017  
Maciej Simm

# Force.com is cloud platform from Salesforce where you can build business applications

- Point & Click Configuration
- Everything is in the Cloud
- App concept for business applications
- Industry leader in CRM

# Plan for Today

Quick demo of various platform functionalities

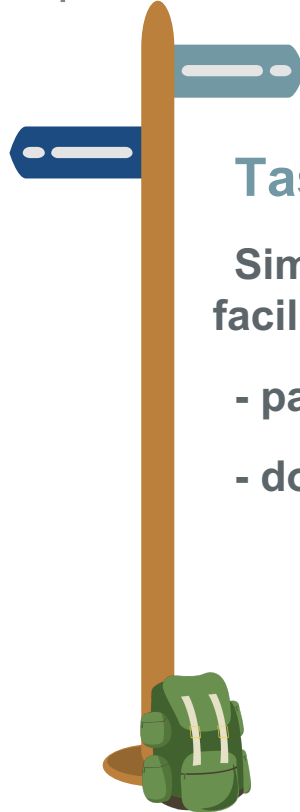

## Action Plan

- 1) Register Force.com
- 2) Spin-off
- 3) Build data model
- 4) Test model
- 5) Add business logic
- 6) Add user interface

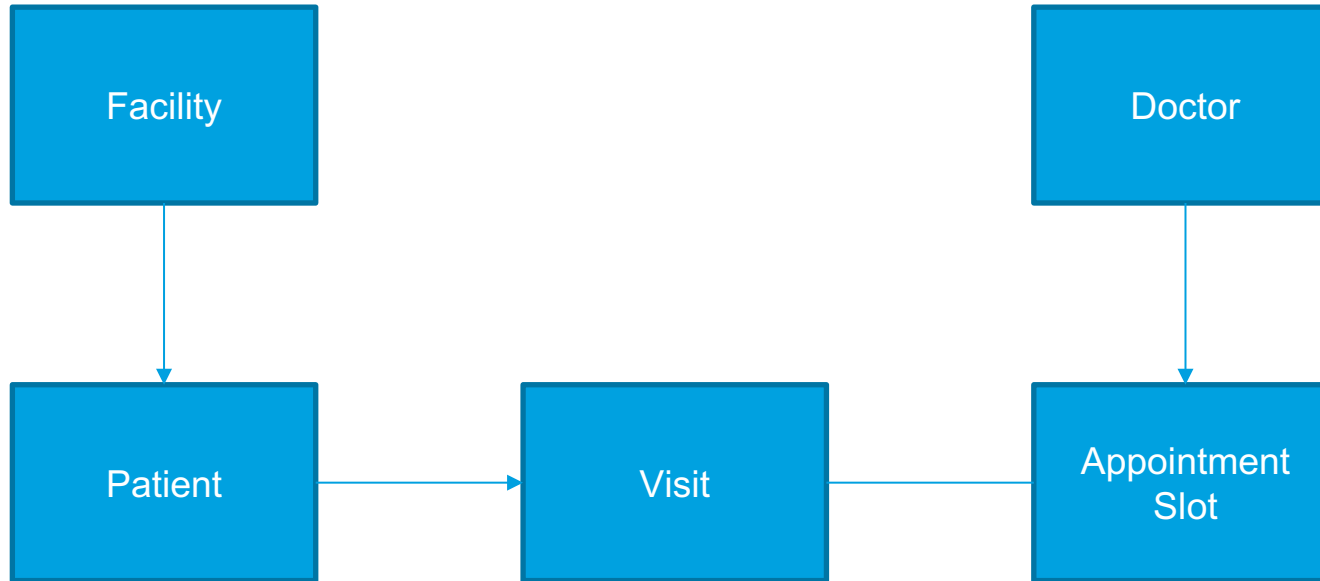

## Task Summary

Simple application for managing healthcare facility where:

- patients can register for visits
- doctors can view history of patients visits

# Data Model
